## [Letter from the President](#)

We had another great turn out for our AGM this year! Thirty plus members came out to enjoy the BBQ and learn about the improvements at the range.

Club executives have been very busy this past year with the renovations to the upstairs storage room, new signage throughout the indoor range and outdoor range, new emergency lighting for point of egress and implementing a bullet purchase program for members.

Our membership continues to grow which helps us remain in the “black” after all of the changes and additions to the range.

In the next few months club executives will be meeting to prioritize our list of improvements for 2016. The list includes:

- Upgrade of the security monitoring system
- Additional RTS systems
- Membership ID card improvements
- Heating/ventilation

Club members have continued to be generous with canned and dried food items for the Food Drive. Let’s keep it up and beat our goal of 200lbs!

**Don’t forget to wear your Membership ID’s and safety eyewear at all times either at the Indoor or Outdoor range.**

**Continue to drop your \$\$ each time you use the range (indoor and outdoor). This small fee keeps a good supply of targets and helps us maintain our club.**

See you at the club!

## [Membership ID/Renewal](#)

Effective immediately, club members **MUST** wear their Membership ID cards when on the club premises. This applies during shooting and non shooting activities. Due to the changes in the ATT requirements the CFO is urging Gun clubs to communicate this requirement to all of their

## Range Inspection

This past summer we had a range inspection by the CFO for both the indoor and outdoor ranges and our club was lauded by the inspector for taking the lead on the Lead Control plan and maintaining a very clean range.

We had a few minor deficiencies which the executive addressed immediately. On the recommendation of the Range Inspector, we have posted the Rules and Regulations in full view; we have installed an Emergency Exit (battery backup) light at the point of egress (downrange) and upgraded the emergency lighting in the lobby and range staging area.

## Lead Control Plan

The Lead Control Plan, as of September, is in full effect. Club executive ask that all members and guests adhere to the new rules in place to help further reduce the lead exposure to members.

A synopsis of our Lead Control Plan:

1. **Control and contain lead bullets and bullet fragments**
2. **Prevent migration of lead to sub surfaces**
3. **Remove the lead from the range and recycle**
4. **Ensure air exchange and exhausting during shooting/range events**
5. **Elimination of black powder shooting from the indoor range.**
6. **Adequate signage to promote personal hygiene while shooting at the club.**

## Miscellaneous

As a reminder, a **Shotgun use** policy has been implemented for the indoor range. A copy of the policy has been strategically posted in the range. Club executives ask all members/guests to take a moment to familiarize themselves with the policy. The Rule/Regulations have been updated to reflect the new Shotgun Use policy.

The Outdoor range is **CLOSED** for the season, as of October 15th.
